

60212 Central Station Free Update CONSUMER RETURN FORM

Consumers who purchased the 60212 Central Station from an authorized North American Märklin dealer and reside in North America, can have their Central Station updated at no charge. To submit your unit to the Walthers Märklin Service Center for updating, please follow the instructions below.

Central Stations were sold both as a separate item 60212 and also included in the 29825 & 29851 mega starter sets. If your Central Station was purchased in a mega starter set, be sure to remove the Central Station from the starter set packaging and return it for update. Please do not return the entire starter set. New Central Stations and mega starter sets distributed to dealers by Märklin, Inc. after October 1, 2007 have been updated.

Depending on the quantity of Central Stations that come into the service center at a given time, Walthers expects to complete updates within 2 to 4 weeks.

IMPORTANT: During the updating process there is a chance a Central Station will fail and cannot be updated. Normally we immediately replace the failed Central Station with a new updated Central Station. At this time we do not have a supply of Central Stations in stock. They are on backorder with the Märklin factory. When you send your Central Station to be updated please sign the bottom of this form, which indicates you acknowledge we will not be able to replace failed Central Stations until the fourth quarter 2008. We apologize for this situation, however we did not want to wait for our backorder of Central Stations, which would have delayed resuming the update program.

To defray your cost of shipping the Central Station to Walthers for update, a \$10 coupon good toward your next Märklin purchase from an authorized North American Märklin dealer will be included in your return shipment.

To submit your Central Station for update:

- Complete this form and include it with your Central Station.
- If there are batteries in your Central Station please remove them.
- Securely pack your Central Station and ship to:

Märklin CS Update
Wm. K. Walthers, Inc.
5601 W. Florist Ave.
Milwaukee WI 53218

If you have any questions please contact Ken Brzenk, Service Manager, at Walthers: 414-918-7304.

Please complete the following information and submit with your Central Station:

Name: _____

Address : _____

(Please provide a physical street address; we do not ship to a P.O. Box.)

City: _____ State: _____ Zip/Postal Code: _____

Country (U.S. or Canada): _____

Daytime Phone: _____ E-mail: _____

Name of store purchased at: _____

Signature: _____

By signing this form, I acknowledge if my Central Station fails in the update process and a replacement Central Station is needed, replacements are not currently available. We anticipate having a supply of Central Stations in the fourth quarter 2008 and will ship replacements at that time.

Internal Use Only
